

*PUEBLO CO AREA MIGRATION CALENDAR*  
(1963 thru May 2010) 3rd ed. Revised

The purpose of this *CALENDAR* is to record earliest arrival and latest departure dates for migrant birds in the Pueblo Colorado area. This area includes Pueblo and adjacent counties, excluding El Paso County, and is the same area covered by Arkansas Valley Audubon Society checklists. Early dates for most migrants are in spring; but early dates for most winter residents will be in fall. Species with a preceding “\*” are often permanent residents where no early/late dates are given. Initials of the observers and the location of the observation follow all dates on the *CALENDAR*. Counties are given for all locations in *italics*, except for Pueblo County.

David Silverman, compiler

Abbreviations & Symbols

x = accidental	Sp = Spring
r = rare	Su = Summer
u = uncommon	F = Fall
f = fairly common	W = Winter
c = common	
* = recorded all seasons
