

We had a nice little outing this morning at the nature center. 11 participants, 6 adults 5 children (and 1 photographer from the Chieftain, look for a picture in Sunday's paper). We were on a mission to re-find the Northern Cardinal, White-throated Sparrows and Black Phoebe, that have been reported of late. We got 2 out of 3. List below. Thanks to Harry Rurup and Richard and Mary Tucey for their assistance with today's walk.

January 28<sup>th</sup>, 2012

Wood Duck  
American Widgeon  
Mallard
